

1976  
*since*

For over **40 years**, Aignep is leading manufacturer of compressed air and industrial fluid **FITTINGS**.

Our company is driven by a constant innovative spirit which has brought us to great results in various sectors of industrial automation. Our products are widely known for their high quality and Italian design.

Pneumatic cylinders, solenoid valves and **FRL** air units are parts of a complete range of **AUTOMATION**.

We produce also fluid process control valves **FLUIDITY**, compressed air pipeline **INFINITY** and an extensive range of **QUICK COPLINGS**. All the products are engineered by a dedicated professional team and manufactured in Italy in the modern site of Bione, **25.000 m2**. More than **14.000** standard items in the catalogue and numerous special versions on demand. Every year Aignep invests in automation innovation and services to satisfy the request of a worldwide customer base.

Precisely to be closer to our customers our company has **10 regional branches:**

USA, Spain, France, Switzerland, Brazil, Colombia, China, Russia and Germany becoming a multinational Group.
