

Display Solutions
Stainless Steel Series by Fabrimex Systems

Display Solutions: Stainless Steel

Presenting our cutting-edge lineup of industrial-grade stainless steel touch monitors and Panel PCs, expertly crafted to set new standards for excellence and precision.

Tailor-made for the most demanding industrial applications, our stainless steel touch monitors are built to thrive in challenging environments, delivering unmatched performance and resilience. The robust stainless steel construction ensures unparalleled durability and prolonged operational life, providing unwavering reliability even in the harshest conditions, while offering an abundance of customizable options to suit your specific needs.

At the heart of our stainless steel touch monitors lies a commitment to reliability. Each unit undergoes rigorous testing, surpassing the most stringent quality standards to deliver a solution you can trust for your industrial operations without compromise.

As esteemed members of the HDBaseT Alliance, we proudly integrate the HDBaseT receiver into our stainless steel monitors. Simplify your setup with a single RJ45 cable of up to 100 meters in length, connecting your monitor to your PC seamlessly. Effortlessly upgrade your installation through a PCIe Card that fits right into your existing systems or an external HDBaseT box, elevating your connectivity to a whole new level.

We are devoted to ensuring your satisfaction. Our dedicated support team is at your service, promptly addressing any inquiries or technical issues that may arise and standing by to assist you throughout your journey with us.

Experience the revolution our stainless steel touch monitors bring to your industrial operations. Redefine productivity, streamline workflows and achieve unparalleled results with our premium Touch Monitors and Panel PCs. Reach out to us today to explore how our monitors can precisely cater to your industrial needs and propel your endeavors forward.

Contact our sales team today at +41 (0)44 908 13 60 or via email at kontakt@fabrimex-systems.ch to explore the possibilities of our premium stainless steel monitors for your industrial needs.

Our Advantages in an Overview

Presenting our cutting-edge lineup of industrial-grade stainless steel touch monitors and panel PCs, expertly crafted to set new standards for excellence and precision.

HDbaseT Technology

Seamlessly connect your monitor to your PC using a single RJ45 cable up to 100 meters in length, ensuring reliable and efficient data transmission.

Wide Range of Sizes

Choose from 12 to 75 inches, allowing you to find the perfect fit for your specific application and space requirements.

IP66 Waterproof

Rugged stainless steel construction with IP66 rating guarantees protection against dust and water, making it suitable for even the most demanding environments.

Versatile Configurations

Tailor-made to suit your needs, our stainless steel touch monitors and panel PCs are available in various configurations, ensuring seamless integration into your industrial setup.

10 Point Multi-Touch Panels

Enjoy an intuitive and responsive user experience with precise control and effortless navigation, enhancing productivity and operational efficiency.

M12 Connectors

Designed for industrial use, the M12 connectors ensure secure and reliable connections in harsh environments, adding to the monitor's durability.

Our primary focus is to secure your satisfaction. Our diligent support crew, along with our skilled technical engineers, is always accessible to provide assistance whenever needed. They are prepared to swiftly handle any questions and technical issues.

Designs beyond the ordinary

Experience the freedom of special designs with MOQs as low as 5 to 10 pieces and in certain cases, we can even accommodate small changes from lot size 1. Our dedicated team is here to explore the full range of possibilities, including panel PCs with configurations spanning from Atom to Core i9 Processors, as well as industrial touch monitors boasting M12 connectors and the option for HDBaseT technology integration.

But that's not all – we go beyond the ordinary. For outdoor use and public display projects, we offer heavy-duty vandalism-safe products that ensure unparalleled durability and security.
